MOTORISATION AND HOME AUTOMATION  
SOLUTIONS FOR INTERIOR AND  
EXTERIOR WINDOW COVERINGS,  
AWNINGS AND PERGOLAS

# Experience a truly connected home **with Somfy**

Imagine closing the blinds in your bedroom each night at the touch of a button and being woken by gentle sunlight in the morning, at a scheduled time that suits you.

When you leave home, you no longer need to remember to close all the blinds or retract your awning, thanks to Somfy's timers and sensors.

Relax and ensure peace of mind while on holiday with presence simulation and the ability to control your window coverings from wherever you are in the world, right from your smartphone.

Enjoy the complete smart home experience with hands-free control using Google Home and Amazon Echo with IFTTT. Watch your home spring into action without having to lift a finger!

**For radio technology that's easy to live with**

**100% wireless**

Limited structural work

**100% compatible**

Control all devices with one remote control or your smart device

**100% upgradeable**

Renovate or modernise at your own speed to suit your needs and your budget

With Somfy's range of automation solutions for window coverings the luxury of controlling your blinds or awnings from wherever you are in the world is possible.

## Enjoy a **better way of living** with Somfy's range of motorised window covering solutions for inside and outside the home

Our internal motor range unlocks incredible choice for your **internal blinds** and **curtains**, adding a touch of luxury and sophistication to any home.

Our external automated solutions include **external venetian blinds**, **roller shutters** and **exterior vertical screens** which provide security, privacy, sound insulation and improved energy efficiency to your home.

Extend your home and enjoy the modern home's 'outdoor room' with our **awning** and **pergola** motorisation solutions.

Somfy's range of internal and external motorisation solutions are suitable for a new build or renovation and can also be fitted to most existing windows. Our intelligent, quiet motors and electric controls can be adjusted via discreet wall mounted units, remote controls, from your smartphone or using voice control. Internal and external lighting can also be controlled with this system.

The flexibility of Somfy's solutions allows you to set your window coverings to automatically open or close via timers and schedules, or using sun, wind and temperature sensors to automatically adjust your window coverings according to the weather. With the latest available technology, consider installing sun or wind sensors which will automatically adjust your chosen window covering if the weather turns.

Speak to your Somfy Expert retailer to find out how our products will bring you flexibility, peace of mind and will take your home into the future.

# A connected world inside your home

Interior window solutions

## Before adding motorisation – what is the best product for you?

My priorities	Curtains	Venetian blinds	Roller blinds	Roman blinds / pleated blinds
Privacy	★★★★	★★★★	★★★★	★★★★
Shading	★★★★★	★★★	★★★★★	★★★★
Managing natural light	★★★	★★★★★	★★★★	★★★
Thermal protection	★★★★	★★★	★★★	★★★

## Interior blinds and curtains

Live in comfort and enjoy the elegance of interior blinds and curtains, powered by Somfy.

Create an interior that reflects your personality and let Somfy do the hard work for you. Automating control of your blinds or curtains is the simplest way to change how you use your space; quite simply, it changes how you live. Play with natural light, and create your own ambiances to achieve privacy, peace and tranquility.

Whatever your design preference – curtains, venetian blinds, roller blinds, roman (or pleated) blinds – Somfy has an automated solution right for you.

Motorisation means no hanging cords, so you're free to relax in a child-friendly and pet-safe setting.

Additionally, you can unwind and enjoy perfect peace and quiet with our silent range of motors.

Indulge in the sophistication of adjusting your blinds and curtains using a remote, smartphone or voice control. The next generation of easy living is available with Somfy.

# Benefit from the freedom of our WireFree motorisation options, which don't require mains connection and can be battery or solar powered

## Benefits

- **Automation can be applied to existing window coverings** or can be customised for a new home
- **Provide immeasurable flexibility** in terms of privacy, design, shading, thermal protection, UV protection and managing natural light
- **Are as quick to install** as manually operated blinds or curtains
- **Are protected** – if someone inadvertently attempts to close or open a curtain manually, the automatic override function kicks in
- Can contribute to **reducing heating or cooling** costs
- **No need for unsightly cords and chains** as is the case with a manual system
- **Operate quietly and smoothly**
- **Option to use WireFree motors** which don't require mains connection and can be battery powered
- **Compatible with an interior sun sensor** which can 'wake up' the house
- Can be operated by the **Smooove wall mounted unit**, by **remote control**, via the **Connexoon Window RTS app** or with **voice control**

# A connected world outside your home

Exterior window solutions

## Before adding motorisation – what is the best product for you?

My priorities	Roller shutters	External venetian blinds	Vertical screens
Security	★★★★	★★★	★
Energy savings	★★★★★	★★★	★★★
Sound insulation	★★★★★	★★★★	★
Shading	★★★★	★★★	★★★
Transparency / control of natural light	★★	★★★	★★

## Roller shutters

Enjoy comfort, insulation and security with motorised roller shutters.

Roller shutters provide excellent security, privacy and shade, and reduce external noise, making them an excellent choice for today's busy urban living or for the home which is exposed to the elements.

There are many different types of roller shutters. The choice of slat type, slat size and material will depend on your priorities – talk to your Somfy Expert retailer about which is best for your home in terms of security, noise reduction and energy efficiency.

If your home is already fitted with handle-operated roller shutters these can be motorised.

### Benefits

- **Obstacle detection** – they will stop automatically if an obstacle is detected, including frost when used with rigid links
- **Settings are automatically maintained** so that the shutter opens and closes perfectly every time
- **Are tamper resistant when lowered** and security can be further enhanced by fitting the roller shutter with rigid links which provide up to 100 kg resistance to lifting
- **Improve energy efficiency** by keeping your house cool in summer and warm in winter - heat and cold is stopped before it reaches your window.
- Are **available in a range of different colours** to suit every façade
- Can be operated by the **Smooove wall mounted unit**, by **remote control**, via the **Connexoon Window RTS** app or with **voice control**

## External venetian blinds

Play with natural light using external venetian blinds.

Say goodbye to glare, when you precisely adjust the slats on your external venetians to let in the amount of light you want.

The ability to introduce sunshine while still maintaining your privacy changes the way you live in your home; making you more aware of the passage of the sun and how it changes through the seasons. External venetian blinds bring a feeling of luxury and sophistication to any home.

There is a large variety of external venetians to choose from: flat or rounded, wide or narrow, aluminium or wood. The style of slat is chosen for aesthetics but also for performance. These choices directly influence the performance of your venetians and affect glare reduction, lighting, and help to optimise shade or wind tolerance. These factors all contribute to how energy efficient your home can be and you will be surprised at the positive impact on your heating and cooling costs. Ask your Somfy Expert retailer about which external venetians will best suit your lifestyle.

### Benefits

- Give the greatest ability to **control natural light**
- Can be set to a **pre-programmed 'favourite position'** with the push of a button
- Come in a **variety of different shades** to suit every façade
- **Can be fitted with a wind sensor** which will fully retract the blind position if it becomes too windy
- Are also **compatible with a sun sensor** which will automatically adjust the slats to reduce or increase the indoor temperature and light level
- Can be operated by the **Smooove wall mounted unit**, by **remote control**, via the **Connexoon Window RTS app** or with **voice control**

Precise control allows you to let in as much, or as little, sunlight as you choose.

External screens give your home shade and greater privacy.

## Vertical screens

As we embrace an open plan lifestyle, the line between indoors and out becomes less defined; exterior vertical screens embrace that concept when used to extend your home.

Vertical screens are not only great for covering your windows, but can be utilised to transform your outdoor space into an outdoor room, protected from the external elements.

The benefit of external screens is that they stop the heat and cold from entering your home before they reach your windows.

### Benefits

- **Are visually appealing** and add sophistication to any home
- **Are available with or without a headbox**
- **Smart obstacle detection** – they will stop automatically if an obstacle is detected
- **Auto learning function** to ensure fabric self tensioning, protect the fabric and ensure high quality finish
- **Remove the need for handles, chains or cords** with manual override feature on CSI motors
- **Can be fitted with a sun sensor** and will close automatically if the sunlight becomes strong
- **Are also compatible with a wind sensor** that automatically raises the vertical screen in strong winds to prevent the fabric tearing
- Can be operated by the **Smooove wall mounted unit**, by **remote control**, via the **Connexoon Window RTS** app or with **voice control**

# Live the indoor life outdoors

Outdoor living solutions

## Before adding motorisation – what is the best product for you?

My priorities	Awning	Pergola
Space	Open	Open or closed
Somfy compatible equipment	Lighting Sensors Roller pelmet	Lighting Sensors Vertical screens
Type of protection	Sun Rain	Sun Rain and wind Privacy

## Awnings

Awnings give you the flexibility to temporarily protect areas from the sun without the commitment or cost of a permanent structure.

With a Somfy-motorised awning, you are free to take full advantage of your outdoor space all year-round! Combining the sleek and attractive awning with the ability to expand or retract it at the touch of a button ensures it will be well used.

Awnings are available in a seemingly endless array of fabrics and there are many options to prioritise – weather-proofing, UV-resistance, strength, durability, shade provision and aesthetics all come into play. The awnings come in three styles – Folding arm awning, Semi-cassette awning and Full-cassette awning.

To enjoy your evenings outdoors lighting and heating can also be incorporated with the ability to be turned on and off via remote control, and can also be set to a timer. Lighting can also be incorporated into gardens or paths, making the space even more versatile. Your Somfy Expert retailer will help you make the right choice for your outdoor space.

Awnings can be wide, elegant, sturdy structures which bring new life to your outdoor space.

## What to choose

### Folding arm awning

The frame and fabric of your awning stay in the open air once the awning is rolled up.

### Semi-cassette awning

The fabric of your awning is rolled into a case, giving better protection from the weather. The arms stay outside.

### Cassette awning

Fully concealed cassette housing provides complete protection for the awning mechanism, arms and fabric of the awning.

## Benefits

- **Controlled at the touch of a button**
- **Can be used with a sun sensor** to automatically extend when the sun comes out
- **Are compatible with a wind sensor** to retract automatically if it becomes windy
- **Are available in countless fabrics**
- **Can incorporate lighting control** in the awning and garden
- **Extend the life of the fabric inside** the cassette by the motor slightly 'releasing' the fabric when it closes
- **Possesses a 'soft close' function** to preserve the mechanism
- Can be operated by the **Smooove wall mounted unit**, by **remote control**, via the **Connexoon Window RTS app** or with **voice control**

## Pergolas

Pergolas are transforming our backyards with the concept of the 'outdoor room' – an outdoor entertaining space that becomes an extension of our home and our lifestyle. Our motorised solutions will allow you to enjoy your outdoor space all year-round.

Pergolas are easy to install, less costly than a verandah and are stronger than a retractable folding arm awning. They can be customised to suit virtually any outdoor space and are seen as a new level of luxury in outdoor living.

Pergolas can include a retractable roof system, an opening roof system or straight drop screens which act as walls for added luxury and comfort. Add remote controlled lighting for the pergola, garden or pool and you have created an entertainer's paradise.

Your Somfy Expert retailer will share all the options for a pergola with you, and help you to create your own outdoor oasis.

### Benefits

- **Can be used with a sun sensor** to automatically close vertical blinds on the pergola when the sun becomes strong to protect plants or outdoor furniture
- **Are compatible with a wind sensor** to retract automatically if it becomes windy
- **Can incorporate lighting and heating control** in the pergola, garden or pool
- **Close neatly and smoothly** to preserve the mechanism and the fabric
- Can be operated by the **Smooove wall mounted unit**, by **remote control**, via the **Connexoon Window RTS** app or with **voice control**

Transform the way you live with your own outdoor oasis.

# Take control of your everyday life!

All the solutions you need to control your home as you like

## Control your home the **smart way** with Somfy

The convenience and simplicity of tomorrow's home is available today. Experience an intelligent home where you can control your automated window coverings and lighting with ease.

### Connexoon Window RTS

Discover our intuitive, smart and playful solution to simplify your life. With Connexoon Window RTS, you now have the comfort and peace of mind to make life at home even easier.

Enjoy the experience of controlling your Somfy-powered solutions from your smartphone, and maximise the many benefits they provide: natural light, privacy and convenience.

You can now control your solutions from wherever you are in the world, or set schedules to let them do the work for you.

Your home is now upgraded, and your life has never been so easy!

### Voice Control

Enjoy the complete smart home experience with **IFTTT** (If This, Then That) compatibility, allowing you to operate your window coverings using simple voice commands to your Amazon Echo or Google Home device.

"Alexa, trigger movie time!"

"Ok Google, let's party!"

All your RTS products can be controlled using your voice or pre-set automations in the IFTTT app. Watch your home spring into action without having to lift a finger.

For more details on Voice Control and to learn how to set up your Connexoon Window RTS device with IFTTT, download the quick start guides available on our website.

## Wall mounted controls

Install a wall-mounted switch for room-by-room control. The Smoove wall mounted control is available in three finishes for the display screen and seven contemporary frame colours to suit any décor. Suitable for all Somfy RTS motorised internal and external products, each Smoove unit operates a single product, or a single group of products.

**Smoove 1**

Operates all RTS roller shutters, internal or external vertical screens, blinds and awnings

**Smoove 1 0/C**

Operates RTS curtains

## Remote controls

A remote control puts functionality in the palm of your hand letting you control all your solutions at once. The remotes are suitable for Somfy RTS motorised roller shutters, external venetian blinds, internal blinds and curtains, and awnings.

**Situot RTS**

- Available in 1, 2 and 5 channel versions to control one or multiple window coverings
- Use “my” button for quick access to your preferred position
- Available in four striking colour options: pure (white), silver, gold and rose gold

**Telis 16 RTS**

- With 16 channels, you can assign a different function to each channel, using a name, icon or number for easy operation. Close a single blind or activate a suite of functions at the touch of a button
- Intuitive programming

**Telis 6 Chronis**

- With six channels, you can assign a different function or scenario to each channel, to close a single screen or suite of functions with just one touch of a button
- Different functions or a suite of functions can be controlled with the automatic timer, with different days programmed to different scenarios

**Situot Soliris RTS**

- Available in 1 and 5 channel versions to control one or multiple window coverings
- Turn your sun sensor on and off with the touch of a button

**Situot Variation RTS**

- Specifically for any type of blind with a tilting blade, the innovative scroll wheel allows you to adjust slats, such as those on a venetian blind, precisely and swiftly
- Available in Soliris version, for control of sun sensor

## Sun, wind and temperature sensors

Sensors give your home a life of its own. Sun sensors will automatically lower your shutters or screens when the level of sunlight increases, to help keep your home cool; a wind sensor will retract your awning if it gets too windy or will raise external screens to prevent the fabric tearing; and an indoor temperature sensor will adjust venetian blinds or close curtains based on a preset amount of sunlight and inside temperature. Sensors are available for all motorised products.

**Thermosunis WireFree™**  
100% wireless indoor sun and temperature sensor

**Eolis 3D WireFree**  
100% wireless wind sensor for external folding arm awnings

**Sunis WireFree**  
100% wireless sun sensor for the façade or pergola

# Somfy, inspiring a better way of living

Our dedicated team registers more than 40 patents each year as we strive to bring the technology of tomorrow into your home, today.

Somfy is the leading global manufacturer of intelligent quiet motors, electronic controls and home automation solutions for interior and exterior window coverings.

For over 50 years, Somfy engineers have designed solutions for both the residential and commercial markets to motorise window coverings such as blinds, curtains, awnings and roller shutters.

Each day, 400 Somfy engineers work towards increasing the comfort, safety and functionality of our homes.

### Guarantee

All Somfy products, including the motor operating life and automatic controllers, are thoroughly tested under extreme conditions to guarantee durability for five years. Connexoon Window RTS has a two year warranty.
